About Us

Kamfed Engineering Company Limited is a Ugandan-based electrical engineering company committed to delivering high-quality, safe, and reliable engineering solutions.

The company is built on a foundation of professionalism, innovation, and technical excellence.

Our team consists of certified electricians registered with the Electricity Regulatory Authority (ERA), supported by an in-house AutoCAD design team.

We specialize in electrical systems up to 33KV, offering end-to-end services from design to commissioning.

We pride ourselves on delivering solutions that meet international standards while remaining cost-effective and efficient for our clients.

COMPANY BACKGROUND

Kamfed Engineering Company Limited was established in 2022 and officially incorporated on 6th September 2023 in Kampala, Uganda. The company was founded with a clear vision of growing from a small local electrical solutions provider into one of Uganda's leading electrical construction and installation firms.

The foundation of the company's practical experience dates back to May 2019, when the team successfully executed its first major electrical project at Samaka House of Plastics, Kiwebwa. This early project marked the beginning of hands-on field experience and laid the groundwork for the company's technical growth and operational confidence.

Since then, Kamfed Engineering Company Limited has steadily expanded its capabilities, handling both small-scale and large-scale electrical installations across residential, commercial, and industrial sectors.

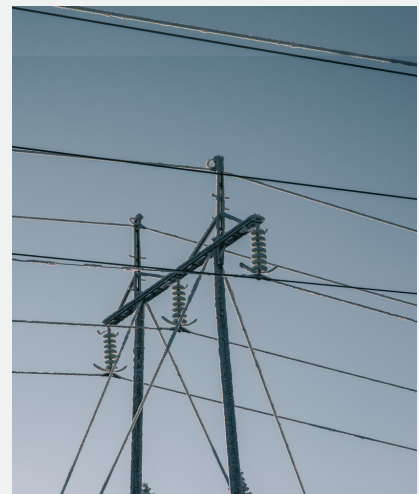

The company currently employs 5 permanent staff and over 15 skilled casual workers deployed across its service and project units. Kamfed is fully registered and compliant with relevant authorities, including URA, and continues to build a strong reputation for reliability, quality workmanship, and professional service delivery.

VISION

To be a leading electrical engineering company in Uganda and across Africa.

MISSION

To deliver reliable, innovative, and cost-effective electrical solutions with professionalism and integrity.

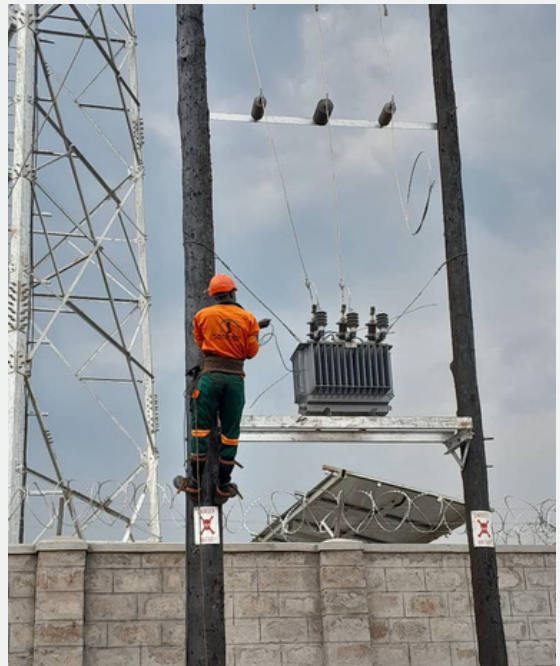

OUR SERVICES

We provide a wide range of electrical engineering services including

- Electrical distribution network design and construction
- Domestic and industrial installations
- Substation construction and maintenance
- Transformer installation and servicing
- Electrical testing and commissioning
- Solar and backup power systems
- Data and network systems installation
- Energy audits and system optimization
- Safety systems installation

CORE VALUES

- Integrity
- Safety
- Accountability
- Reliability
- Quality
- Innovation
- Customer Satisfaction

CORE MARKETS

- Commercial buildings
- Industrial facilities
- Hospitals
- Schools and institutions
- Hotels and hospitality
- Warehouses
- Shopping malls

PROJECT EXPERIENCE

Kamfed Engineering Company Limited has participated in multiple projects including high-voltage installations, transformer installations, and power supply systems.

Our experience includes working with telecom infrastructure, industrial clients, and institutional facilities.

NO	NAME OF CONTRACT	EMPLOYER	STATUS
1	HV construction and transformer installation for M/S Insite towers(u)ltd Nsozi-INS/UG/WE/014	Vinny investments. (Insite Towers Uganda Limited)	On going
2	HV construction and transformer installation for M/S Insite towers(u)ltd Rubindi-INS/UG/WE/013	Vinny investments Ltd. (Insite Towers Uganda Limited)	On going
3	Electrical supply, electrical equipment maintance and accessory provision.	Mityana secondary school	On going
4	M/S Queen Elizabeth Nationa park of Kanyangeya		Completed
5	HV line construction and transformer installation for mr. Sseruwagi Julius	Mr. Sseruwagi Julius	Completed
6	HV line construction and transformer installation for Mr. Ssempijja Richard	Ssempijja Richard	Completed
7	Power supply and transformer installation to Hanns R Neumann stiffing Africa Limited	Hanns R Neumann stiffing Africalimited	Completed
8	Power supply , line construction inspection and transformer installation at ATC kakindu	Semu Intergated Solutions Ltd	Completed
9	HV construction and transformer installation for Kizito Joshua		Completed
10	Mena Granite Limited of Nyanama	M/S Mena Granite Limited of Nyanama	On going
11	HV construction and transformer installation for Mr. Mujjumbi Lameck	Mr. Mujjumbi Lameck	On going
12	HV construction and transformer installation for Renewal Health Care Ltd	Renewal Health Care Ltd	On going
13	HV construction and transformer installation for <u>Atlas steel limited</u>	Atlas steel limited	On going

TECHNICAL CAPABILITIES

We have the capability to execute full electrical projects including design, implementation, testing, and commissioning.

OUR EXPERTISE INCLUDES

- Three-phase installations
- Power line construction up to 33KV
- Solar and backup systems
- Generator installations

EQUIPMENT AND TOOLS

- Earth resistance testers (Megger)
- Multi-meters
- High voltage safety gear
- Pole cutters and climbing tools
- GPS equipment
- Service vehicles
- Lifting equipment
- Testing instruments

CONCLUSION

Kamfed Engineering Company Limited is committed to excellence in electrical engineering.

We continue to grow and improve our services to meet the demands of modern infrastructure development.

We are your trusted partner for reliable electrical solutions

HEALTH AND SAFETY POLICY

Safety is a top priority at Kamfed Engineering Company Limited. We ensure all operations comply with safety standards and regulations to protect both workers and clients.

Our team is trained in safety procedures and uses protective equipment at all times.

QUALITY ASSURANCE

We maintain strict quality control procedures to ensure all work meets required standards. Our goal is to deliver durable, efficient, and reliable electrical systems.
